Claims 1-14 are pending and are subject to restriction.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9 and 13, drawn to a flax seed and plant having a linolenic acid content of greater than 65% of the total fatty acid content of the seed, and a method of using said plant by crossing it with another flax plant, classified in class 800, subclass 298, for example. (If this Group is elected, then applicant must also elect a single nucleotide sequence)
- II. Claim 10, drawn to oil, classified in class 426, subclass 601, for example.
- III. Claims 11 and 12, drawn to a product containing flax seed, classified in class 426, subclass 615, for example.
- IV. Claim 14, drawn to a product comprising meal, classified in class 426, subclass 655, for example.

The inventions are distinct, each from the other because:

The inventions of Groups I-IV are distinct products, which differ chemically, structurally and functionally. The flax seed and plant of Group I can be used for something other than producing oil of Group II, or the products of Groups III and IV, as evidenced by these different claims. In addition, the products of each of Groups II-IV are not required by any of the others. The inventions of Groups I-IV can be independently used and the patentability of one would not render the other obvious or unpatentable.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, their recognized divergent subject matter, and the requirement for different areas of search, restriction for examination purposes as indicated is proper.

5

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

10 Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

15 Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth F. McElwain whose telephone number is (703) 308-1794. The examiner can normally be reached on Monday through Friday from 8:00 AM to 4:30 PM.

20 If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amy Nelson, can be reached at (703) 306-3218. The fax phone number for this Group is (703) 308-4242. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989).

25 Any inquiry of a general nature or relating to the status of this application should be directed to the CUSTOMER SERVICE TECH CENTER 1600, whose telephone number is (703) 308-0198, or to the Group receptionist whose telephone number is (703) 308-0196.
